

(COMEDY)

EXT. AERODROM LOS ANGELES (LAX) 11:45 NIGHT.

Complete darkness. The plane is heard in the distance ... the noise is intensifying ... the deafening noise of aviation engines ... The Boeing 757 aircraft on the Los Angeles - New York line will depart. Infinite lights of Los Angeles ...

INT. AVION BOEING 757 NIGHT

Almost empty plane. Al is traveling alone. He is a middle-aged man. He has an expensive black suit, a white shirt and a tie. He moves elegantly.

A young, attractive attendant serves a refreshing drink. She approaches Al.

STEWARDESS

Do you want coffee or tea?

AL

Coffee please.

STEWARDESS

Sugar, milk?

AL

Yes please.

The stewardess pours coffee in the glass on the serving tray with the other hand and gives Al a smile.

STEWARDESS

Here you are.

AL

Thank you.

Brandon is sitting in 2 rows behind Al. Young athletic man. Dressed as a sportsman. Frances, a very nice brunette, leans on him.

Kevin sits on the other side of the passage beside Brandon. He is a man of the best years. Dressed in a cheap gray suit. I'm traveling alone. He talks to Brandon.

KEVIN

(proudly states)

... I never paid for it
one sentence for improper
parking and I did not add
"I wish you a pleasant day".
Good behavior is at first
place ...

Brandon confidently approves such behavior by nodding his head. At that moment Al passes by them. Kevin's eyes narrowed slightly from surprise.

KEVIN

(says to Brandon confidentially

covering his mouth)

This is Al ...

(Highlights)

He is a mobster ..

Brandon nodded still indifferent..

John is sitting in two rows behind Kevin. He is in the late fifties.

Extremely subtly dressed. Armani. Rolex. He talks to Diane, an attractive blonde half a dozen younger than he.

JOHN

... everything will look completely

different. We will reduce

CO2 emissions by 80% and it will

stop globally

warming up ... It's going to be over again
to be able to breathe and not to speak
about ozone holes ...

Behind him sits Jack. Looks like he would say he is a pensioner. He
has a crumple brown suit.

Jack heard what John said and that caused him a revolt.

JACK

You politicians are the greatest
liars. This world would
be much better if there were
none of you ...

His wife Kathy sits next to him and gives him a sign to silence.

But the wick is on. Though John is restrained and tries to
congratulate him, his ego is wounded.

JOHN

I have done a lot of good...

JACK

(cannot stay silent and provokes)

You can think whatever you like..

Now John slowly loses his nerves and responds feverishly.

JOHN

I'm the one who has shrunk the
crime in Washington!

(adds more passion)

I'm the one who brought
help in New Orleans

after Katrina !!

(she's already talking about it now

in the style of Adolf Hitler)

I'm the one who said

Bush should not leave Iraq

before the victory !!! It's me

who is ...

DIANE

(slightly interrupting)

John, what are you doing?

JOHN

...And?

John gets ready. She nods her head.

JACK

(Decreasing)

What do you ...

Kathy catches Jack with his sleeve and breaks it with his finger in
his mouth.

JACK

(Now addressing to Kathy)

What do you silence me?

Are we fighting for that?

This is a free country!

KATHY

(it calms him)

You do not know this man.

JACK

They're all the same! Before
The election they promise everything.. and later
They just think of themselves...

Jack continued to deny to himself by muttering himself in his chin.
Behind them sits a cheerful couple in mature years. Danny's low
growth, chubby. He talks to his wife, Bette, who reads the
journal.

DANNY

... it should be bought for
sleeping room.

BETTE

Slowly, we need first to
consult S & F, let's see
what do they think ...

(continues reading the newspaper)

DANNY

I cannot wait to arrive
home...

The camera goes to the pilot cabin. There was a pilot and a cop. Both
look younger. They routinely do their job ...

PILOT

Delta 704 calls control
flight to New York.

Delta 704 calls control
flight to New York.

LETTER CONTROL

Delta 704, here's the control
flight to New York.

PILOT

Delta 704 asks for permission to
landing at the airport
Kennedy.

LETTER CONTROL

Roger that. OK Delta 704.
We'll put you in. Extend
the same corridor.

PILOT

Delta 704 received a message.
Roger.

CO-PILOT

(says the pilot)

We have a great time for

landing...

In the air, the noise of the engine noise. Over the news it is heard that the weather in New York is bright, the temperature is 25 degrees Celsius. ODORED ABSOLUTE ROCK AND MRAK. It takes about 10 seconds so that the viewers of the movie are upset. After about a decade, everything suddenly returns as it was. Only now is the day and not the night anymore. Passengers are confused. They feel that some changes have taken place but they do not know what it is. Comments are heard ...

KATHY

(looking at Jack)

What would this be?

JACK

Even the airline companies are not

What they used to be ...

FRANCES

says scared to Brandon)

Something very weird

happened...

BRANDON

(looks back)

Everything looks okay ..

Pilot aircraft also does not understand what happened. There is daylight outside. It looks at the command board. Check out the commands. It all seems normal. He looked at the copilot with a questionable look. Copilot shrugs ...

PILOT

Was not a night a moment ago?

CO-PILOT

It was...

PILOT

And now it is no longer ..

CO-PILOT

No ...

PILOT

So it seems to me ...

He is trying again to establish a connection with flight control.

PILOT

Delta 704 calls control

flight to New York.

Delta 704 calls control

flight to New York.

The radio device writes, pucks, but has no answer. Pilot tries again

...

PILOT

Delta 704 calls control

flight to New York. Do we

hear? Roger.

LETTER CONTROL

a strong foreign accent

responds)

Over there Kondor! Over there Kondor!

No more Roger ...

PILOT

(astonished but continues)

Roger that. Here is Delta 704.

I lost contact with New

York. Can you

help?

LETTER CONTROL

There is no Roger here. It's here

Condor. Thirty miles

in front of you

Airport Heaven. I advise

landing because later is

Hell.

Pilot looked at the copilot surprised. The bastard responds by
slipping the shoulders.

PILOT

Roger that. Flight control,

where is the John

Kennedy airport ?

LETTER CONTROL

Hey, next to Kondor. No more

John. I suggest landing

because hell is after us.

PILOT

Roger that. Let's go.

The plane crashes high karst mountains. There were beautiful mountainous lakes, forests and meadows. It goes down to the blue sea. Frances looks through the window of the plane.

FRANCES

(tells Brandon)

See what's nice here.

BRANDON

(overflowing)

It's nice but it does not look like

New York to me... ... does not look like

America too ...

The captain addresses the travelers through the phrase: "It seems we have minor technical difficulties. We will land at the auxiliary airport. The flight to New York plans to resume soon. "The stewardess continues:" Please tie up your belts and straighten the seat backrests ... "

Passengers look at each other's reactions ...

EXT. AIRPORT DAY

Flights Boeing 757 go downhill. The main building is small. There is a tab "Heaven" on it. It looks like it's not a traffic aerodrome. Light, purity and beauty of nature is everywhere.

At the airport, the trumpet orchestra plays "Imagine" by John Lennon. Passengers leave the plane.

BETTE

(frowning)

What kind of music is this?

JACK

As soon as I sat on the plane, I knew

It is going to be a problem ...

FRANCES

So where are we?

They are met by the middle-aged couple Mickey and Miriam. Friendly
and smiling ...

Everything is a former functionator, seducer, fraudster. Now a
practically exemplary man. He was dressed in a light linen
sports suit. He's fine.

Miriama is a little younger than Mickey. It can be said that she is a pretty looking woman. She has a flamboyant turquoise dress that highlights her sleek line.

MIKCKEY

Welcome, I am Mickey and

this is my wife

Miriam. We wish you a comfortable

stay...

The passengers are loudly protesting.
